Description: Consideration to Authorize Purchase of Leaf Vacuum Trailer

Requested Action:

Move to authorize the purchase of leaf vacuum trailer from Bell Equipment Company in the amount of \$47,083.85.

Background:

City Administration is requesting authorization to purchase a new leaf vacuum trailer from Bell Equipment in the amount of \$47,083.85. The Fiscal Year 2014-15 Budget, which began July 1, has \$60,000 budgeted for the replacement of this piece of equipment.

The Public Works Department operates three leaf vacuum trailers each fall as part of the leaf collection program. The unit to be replaced was purchased in the late 1990's and experienced significant down time in 2013. The other two units were purchased in the mid 2000's and have been reliable. City Administration is requesting approval to purchase at this time in order to receive the piece of equipment by mid-October. This piece of equipment was competitive bid as part of the National Joint Power Alliance (NJPA) program which is a national purchasing cooperative serving municipal governments.

Self Contained Leaf Collector Basic Specifications

Engine	Cummins B3.3 diesel 4 cylinders for 65HP @ 2600 RPM, certified for Tier 4 emissions.
Engine Mount	Engine is equipped with four 45 degree slant designed engine mounts to elevate vibration.
Air Cleaner	Dry element with pre-cleaner.
Radiator	Pressurized, heavy duty. Trash style with 6-blade fan.
Radiator Screen	Constructed of 1/2" expanded flattened steel with steel mesh. Screen is bottom hinged to allow for cleaning without powering down the engine.
Engine Controls	Mounted in a hinged instrument panel. Gauges include: Tachometer, hour meter, volt meter, fuel gauge and oil pressure gauge. All monitoring gauges have backlighting. Automatic safety shutdown for high temperature or low oil pressure with LED indicator lights. Glow plug control provided for cold weather start aid.
Engine Sheet Metal	Engine is covered by a custom sheet metal enclosure constructed of 16-gauge steel. The enclosure has front and rear access doors, which are louvered for proper air circulation. Two doors are provided on top of the enclosure for convenient access to the radiator cap and oil fill cap.
PTO	Heavy duty 13" automotive style PTO with a 2.25" shaft.
Drive Type	3-groove Kevlar power band.
Trailer Chassis	Heavy duty channel steel, formed and welded. Chassis is constructed of 3" x 8" tubular steel
Trailer Dimensions	
14 C.Y.	119" high x 101" wide x 252" long.
20 C.Y.	119" high x 101" wide x 278"
25 C.Y.	119" high x 101" wide x 314"
30 C.Y.	119" high x 101" wide x 348" long.
Axles	
14 C.Y.	Dual 3.5 inch Torflex axles rated at 16,000 pounds with electric brakes.
20 C.Y.	Dual 4.5 inch Torflex axles rated at 20,000 pounds with electric brakes.
25&30C.Y.	Dual 5.0 inch Torflex axles rated at 24,000 pounds with electric brakes.
Tires	ST235-85R16 x 16 for 14CY units; LT9.50 x 16.5 tires for 20, 25 & 30 CY units.
Pintle Hook	Heavy duty pintle eye that is height adjustable without the use of tools.
Tow Tongue	Heavy duty 6" x 6" square tubing that is bolted to main frame (optional length tongues available)
Parking Jack	Heavy duty 12,000 pound static capacity side wind jack with foot.
Trailer Lighting	LED type stop and turn signals with turn signal indicators. Dual LED strobes are mounted in the rear.
Impeller	28" diameter with 6 gusseted blades constructed of 3/8" thick abrasive resistant T-1 steel with a Brinell hardness exceeding 400. Each blade is gusseted on the back side and welded to a 1/4" thick backing plate. Impeller blades are flat with serrated tips for increased wear. Impeller is secured to the shaft via a taper locking bushing.
Impeller Bearings	Two 2" diameter double roller 4 bolt flange type bearings.
Impeller Shaft	2" diameter precision machined steel.
Blower Housing	Outer housing is constructed of 3/16" thick welded steel, front and back plates are 10-gauge steel. A safety kill switch shuts down the engine when the hose is disconnected. Made of 1/4" abrasive resistant steel.
Filters	
Suction Inlet	Located on the curb side and incorporates quick access via removable rods.
Intake Hose	16" diameter x 120" long. Heavy duty wire reinforced .060" thick flexible urethane hose.
Hose Boom	Hydraulically controlled with an electric operated hydraulic pump. Boom pivots in a greaseable tube for effortless movement. Hydraulic cylinder is 1.5" diameter, with a minimum stroke length of 12 inches.
Boom Controls	100% waterproof marine-style switch located on the intake hose nozzle.
Intake Nozzle	16" diameter nozzle with handle constructed of 12 gauge steel.
Hoist Hydraulics	Gear driven hydraulic pump connected directly to the engine. The control valve for the hoist is located in the front of the unit for easy access.
Dumping Hoist	Uses a Crysteel scissor style double acting hoist capable of dumping 15.2 tons for the 14 CY, 21.5 tons for the 20 CY and 26.6 tons for the 25 & 30 CY units.
Box Container	Self dumping container constructed of 12-gauge steel with vented top and side hinge doors that lock in the open position for dumping. Available in 14, 20, 25 & 30 cubic yard capacities.
Top Screens	Two (14 & 20) or three (25 & 30) easily removable 1/2" expanded steel mesh screens are located on the top of the box container.
Fuel Tank	30 gallon capacity constructed out of 1/4" thick polyethylene.
Paint	Each part is primed with a rust inhibitor primer and is painted with two coats of automotive quality paint. The parts are then assembled on the unit so that bolts, nuts, cables and grease fittings are not painted. Standard Hopper color is White. Engine, blower housing and mounting platform are battleship grey color. Trailer frame, tongue and underside of the hopper are black color.
Optional	<ul style="list-style-type: none"> o 74 HP Cummins B3.3 engine o Bottom Exhaust for hopper o Hydraulic parking jack o Chassis or Hook Lift mounts o 45 degree inlet elbow o HD rubber suction hose o Air Scoop on top of hopper o Fluid drive coupler o Custom hopper color o Single top hinged door

Instrument Panel

Hinged instrument panel allows easy access to the instrument wiring. All engine monitoring gauges are backlit for increased visibility.

Removable Exhaust Screens

Two (14,20CY) or Three (25,30CY) removable 1/2" expanded steel screens are located on the top for proper ventilation. The screens are easy to change from the side by removing two bolts.

Side Hinge Rear Doors

There are two rear, side hinged doors which lock easily to the side for dumping. Strong cam-type rods lock the door closed.

Description: Consideration to Approve Temporary Outdoor Seating for Pages Restaurant During the Founders Festival

Requested Action:

Move to approve temporary outdoor seating for Pages Restaurant during the Founders Festival

Background:

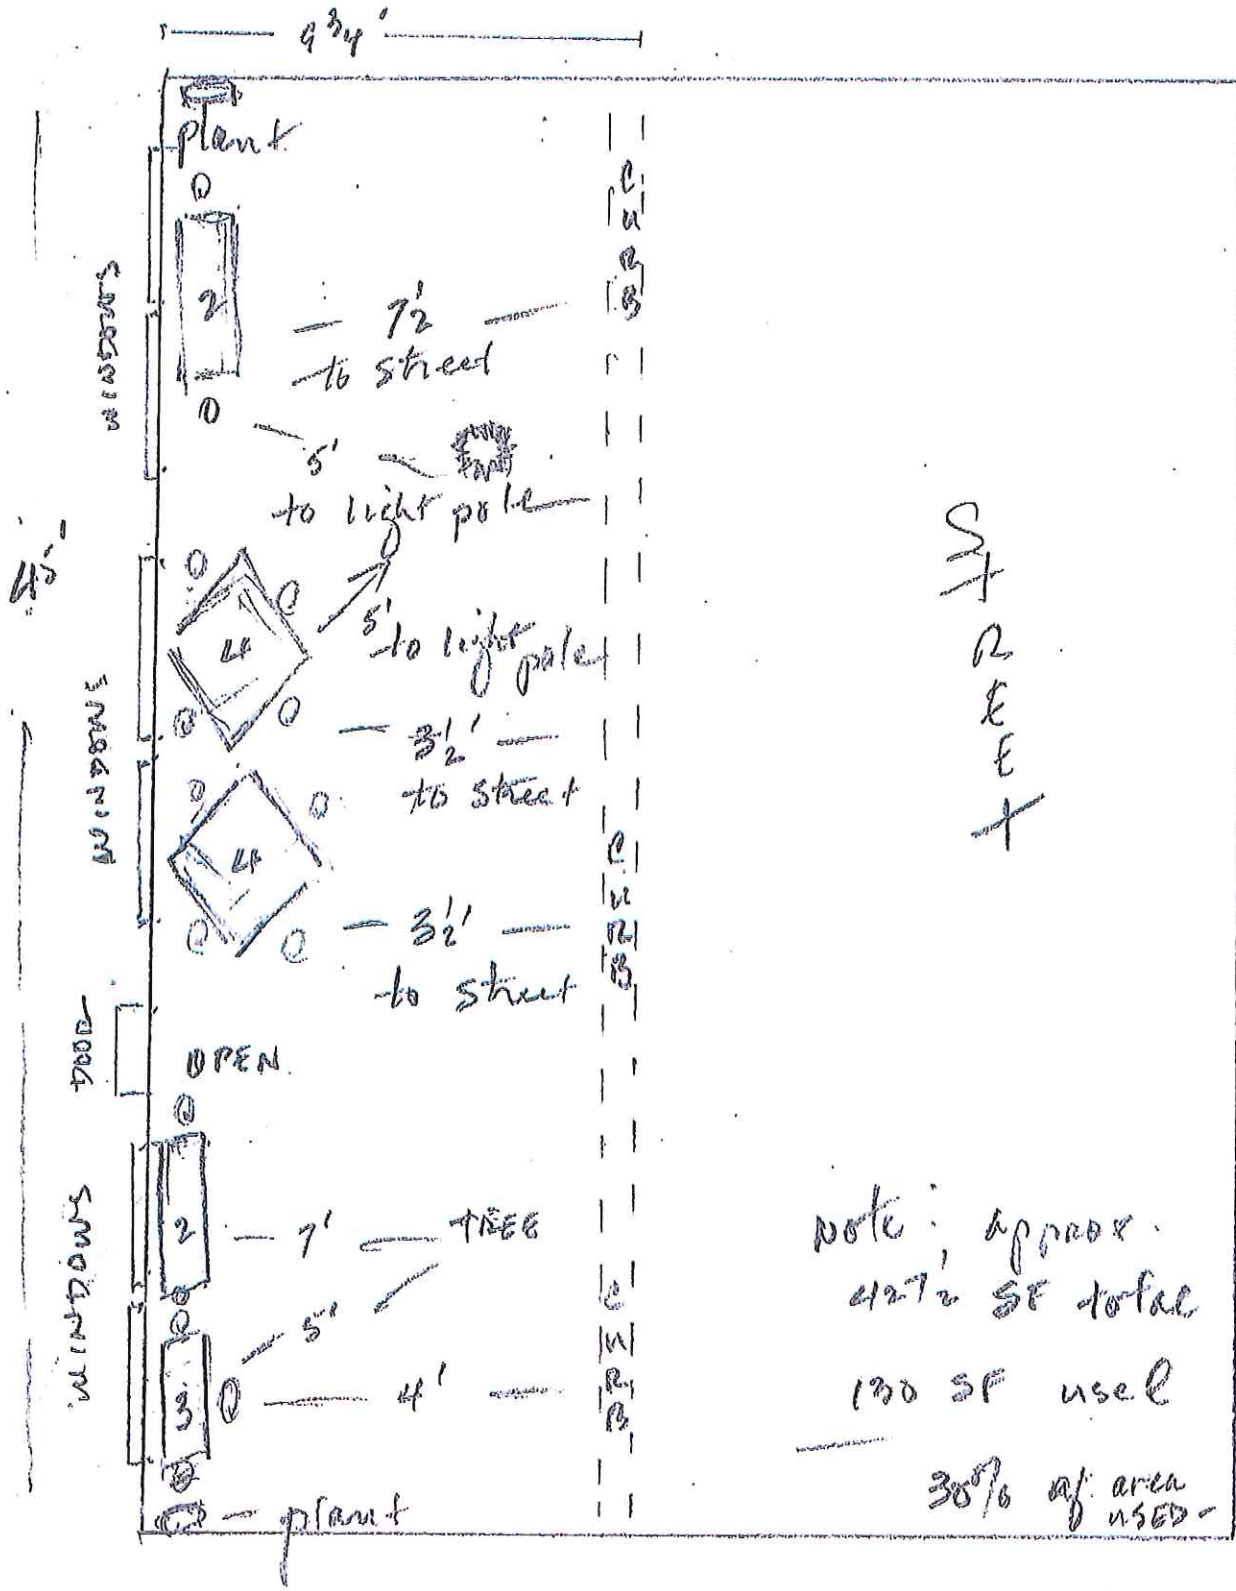

City Administration is requesting City Council approve temporary outdoor seating for Pages Restaurant during the Founders Festival. Page's received approval from the Planning Commission at their June 12 meeting for permanent outdoor seating and is completing their application with the Michigan Liquor Control Commission (MLCC). The MLCC does allow for temporary outdoor seating serving alcohol for an existing establishment up to three days. This temporary outdoor seating requires the approval of the local legislative body.

Description: Consideration to Approve Construction Estimate No. 9 and Change Order No. 6 for the 2013 Streetscape & Utilities Improvements

Requested Action:

Move to approve Construction Estimate No. 9 in the amount of \$74,297.49 plus releasing \$25,000.00 in retainage, and approving Change Order No. 6 in the amount of \$52,986.32.

Background:

City Administration is requesting that City Council approve construction estimate No. 9 in the amount of \$74,297.49 plus release \$25,000 in retainage. In addition, City Administration is requesting approval of Change Order No. 6 in the amount of \$52,986.32 which represents additional items requested by field balancing measurements and additional items requested by the City. This will leave approximately \$4,500 in remaining work to be completed. At the meeting, Council will receive a summary of the change orders.

ARCHITECTS. ENGINEERS. PLANNERS.
June 13, 2014

Mr. Chuck Eudy
DPW Superintendent
City of Farmington
33720 W. 9 Mile Road
Farmington, Michigan 48335

Regarding: 2013 Streetscape & Utilities Improvements
OHM Job No. 0111-11-0163

Dear Mr. Eudy:

Enclosed is Construction Estimate No. 9 with the Contractor's Declaration for the referenced project.

Warren Contractors & Development Inc. has completed the work shown on the attached construction estimate for the period ending June 12, 2014 and we would recommend payment to the Contractor in the amount of **\$99,297.48** which includes the partial release of previously held retainage.

The itemization of the Total Earnings This Period is as follows:

Breakdown by Category:

Category – Grove Street: General	\$0.00
Category – Grove Street: Water Main	\$0.00
Category – Grove Street: Paving	\$19,209.30
Category – Grove Street: Streetscape	<u>\$18,749.85</u>
Grove Street Total this Estimate:	\$37,959.15
Category – Warner St. & Oakland Ave: General	\$0.00
Category – Warner St. & Oakland Ave: Water Main	\$0.00
Category – Warner St. & Oakland Ave: Sanitary	\$0.00
Category – Warner St. & Oakland Ave: Paving	-\$51,624.33
Category – Warner St. & Oakland Ave: Streetscape	<u>\$87,962.67</u>
Warner St. & Oakland Ave Total this Estimate:	\$36,338.34

Retainage Release: \$25,000.00

Sincerely,
OHM Advisors

Gary M. Smolinski
Construction Manager
