## Planned Unit Development

The Planned Unit Development (PUD) is a design option offered to encourage innovation in land development by permitting flexibility in the regulations for development. Variations in housing types, preservation of natural and historic features, creative use of open space, efficient use of public services and utilities, and the development of convenient recreational facilities are objectives of the PUD development technique. The PUD is accomplished through variation in design and dimensional requirements as determined by the Planning Commission. Please refer to *ARTICLE 10 PLANNED UNIT DEVELOPMENT* of the Zoning Ordinance for details of specific standards and procedures required for PUDs.

The following steps are necessary for PUD review and approval:

1. **Pre-application Conference with the Planning Commission (Optional).** The applicant may request a pre-application conference with the Planning Commission to discuss the appropriateness of a PUD and to solicit feedback on the proposal.
